B. Tech/ BBA / Bcom. (Hons.)

Examination 2025-26

(Odd Semester)

**ENVIRONMENT & ECOLOGICAL
SUSTAINABILITY**

Time : Three Hours]

[Maximum Marks : 60

Note :- Attempt all questions.

SECTION - A

1. Attempt all parts of the following :

$8 \times 1 = 8$

- (a) ✓ What is lapse rate of troposphere in atmosphere?
- (b) ✓ What is grazing food chain?
- (c) ✓ What is cause of minamata disease?
- (d) ✓ What is carrying capacity?

[P. T. O.]

- (e) Differentiate between conventional and non-conventional energy resource.
- (f) What is tolerance limit of sound intensity?
- (g) Write the name of chemical responsible for ozone layer depletion.
- (h) Write the articles which have introduced in 42nd amendment made in constitution of India.

SECTION – B

2. Attempt any two parts of the following : $6 \times 2 = 12$

- (a) Define term ecology and ecosystem. Write different components of ecosystem. Explain single channel energy flow model in an ecosystem.
- (b) Differentiate between defluoridation and refluoridation. Discuss fluoride problem in drinking water in India and its removal technology.
- (c) What is climate change? Write the name of different of different green house gases

(GHG's). Discuss causes, effect and control method of global warming.

- (d) What is environmental legislation? Discuss the role of government in environment protections.

SECTION – C

Note:- Attempt any two parts from each question . All part carry equal marks. $8 \times 5 = 40$

3. (a) Characterized different layer atmosphere. Discuss temperature behaviour in different layer of atmosphere.
- (b) What is ecological pyramid? Discuss different types of ecological pyramid with suitable example.
- (c) What is water related disease? Differentiate between water born disease and water induced disease with suitable example.
4. (a) What is EIA? Discuss different steps of EIA.
- (b) What is sustainable development? How can we achieve the sustainable development. Discuss the measures of sustainable development.

[P. T. O.]

- (c) What is environment manage system? Discuss different steps of EMS.
5. (a) What is photovoltaic cell? Discuss solar energy application and its merit and demerits of solar energy.
- (b) Differentiate between primary air pollutant and secondary air pollutant with suitable example. Discuss removal of particulate matter from air.
- (c) What is water pollution? Discuss source, causes and effects of water pollution.
6. (a) What is population growth? Discuss logistic curve of population growth.
- (b) What is solid waste? Characterize the different solid waste. Discuss methods of solid waste management.
- (c) What are main objectives of environmental education? Discuss role of women education in environment protection.
